

Quality Equestrian and Timber Buildings

Broadfield Field Shelters

If you are looking for mobile field shelters, we can help.

We are pleased to stock a wide range of mobile field shelters to meet your exact requirements. Whether you require a no frills mobile shelter or would like us to create a bespoke design, we are confident that we have the perfect shelter for you.

When it comes to mobile field shelter, you can count on us for a durable structure that is built to last. Our Broadfield shelters boast a galvanised skid that provides enhanced mobility and prevents rust. This is our top range of field shelters with fantastic offers for DIY, please contact the office for further details.

Key Benefits:

- 100x100mm Galvanised steel skids
- 100x50mm cls framework
- 19mm (3/4") shiplap cladding
- 125x50mm/100x50mm roof purlins
- 1200mm overhang lined with Harwood Plywood
- Guttering to front elevation
- Pressure treated throughout
- Eaves height 2386mm
- 11mm osb roof lining
- 12mm hardwood plywood kickboards

Billinghamhurst Field Shelters

Our design team are confident you will not find a building to match the design specification or price of the Billinghamhurst Mobile Field Shelter Range.

Key Benefits:

- 19mm (3/4") shiplap cladding
- 100x50mm roof purlins
- 1050mm overhang lined with Hardwood Plywood
- Pressure treated throughout
- Eaves height 2260mm
- 11mm OSB roof lining
- 14mm OSB kickboards

- 75x50mm cls framework
- 16mm (1/2") shiplap cladding
- 100x50mm roof purlins
- Black Onduline roof
- 650mm overhang lined with 9mm plywood
- Pressure treated throughout
- Eaves height 2200mm
- Big savings on DIY option

Fox Timber Stable

The Fox is one of the sturdiest Stables on the market.

Of course strength and durability will not be your only concern, the Fox loose boxes come with a 1800mm softwood overhang, support posts attached with attractive curved braces.

A combination of a clear roof sheet and vented window as standard will keep your loose boxes bright whilst the rear top door option will allow you to control airflow and allow your horse a view from both sides of the stable.

Key Benefits:

- 100x50mm cls framework
- 19mm (3/4") shiplap cladding
- 125x50mm/100x50mm roof purlins
- 1800mm overhang lined with shiplap and support posts
- Front and rear gutter c/w downpipes
- Pressure treated throughout
- Eaves height 2400mm
- 11mm OSB roof lining
- Profiled door posts with top door chew protection inc top door inner edge
- 12mm hardwood plywood kickboards

Southdown Horse Stable

We find many of our commercial customers select this range due to its durability, flexibility and as this popular range is the backbone of our business, we offer a package as standard which most of our competitors struggle to match, both on price and, more importantly, quality.

There are, of course, many different 'extras' that can be incorporated into this range to make your yard that little bit different.

This picture shows a P6 fibre cement roof.

Key Benefits:

- 75x50mm cls framework
- 19mm (3/4") shiplap cladding
- 100x50mm roof purlins
- 1050mm overhang lined with hardwood plywood
- Front guttering with downpipes
- Pressure treated throughout
- Eaves height 2300mm
- 11mm OSB roof lining
- Profiled door posts
- 12mm hardwood plywood kickboards

Canter 'Value' Stable Range

Based on the same framework as the Southdown but with a few changes to make it more economical.

Key Benefits:

- 75x50mm cls framework
- 16mm (1/2") shiplap cladding
- 100x50mm roof purlins
- 1050mm overhang lined with 9mm plywood
- Pressure treated throughout
- Eaves height 2200mm
- Profiled door posts
- 11mm OSB kickboards
- Big savings on DIY option

Mobile Stables

Our range of Mobile Stables is becoming increasingly popular for those that would like a timber building that can be used as either a stable or shelter which is on skids so can be towed. It has all the benefits of a Mobile Field Shelter as well as the benefit of a stable!

We offer three skids options: 100 x 100 Steel Skids, 80 x 40 Steel Skids or 100 x 75mm Timber Skids.

Internal Stables

If you are looking for a cost effective stable, we can help. Here at Broadfield Stables, we can provide you with high quality internal stables and save you money in the process. Why not make use of that otherwise disused building with internal loose boxes? Very often a less costly way of having stables, you can have your own American Barn at a fraction of the price.

A choice of Softwood, Hardwood or tough recycled Plastic is available for the lower infill of your panels depending on your design brief's priority.

The most popular choice of door is a lower swing door at 1220mm high, including as standard auto animal bolts and kick over bolts for horse's who fiddle! We also offer top grill, sliding and anti-weave doors.

Key Benefits:

- All steel galvanised.
- 50mm x 50mm special profile box section framework
- Lower boarding to 1.22m
- Fully furnished lower swing door included with stable fronts.
- 22mm diameter tubes spaced at 53mm

American Barns

The American Barn is where our clients can exercise maximum flexibility of design and requirements – such as door and window position, number of boxes, tack and hay storage and so on.

With the added bonus of mucking out, grooming and tack up all under one roof! No two American Barns are ever the same and so each is priced on its individuality. Just sketch out your requirements and we'll give you a quote.

Dog Kennels

Investing in a Kennel and run for your dog gives you piece of mind that your dog has his own space where he will feel safe and secure.

The breed, size and number of dogs you have will dictate the range and size of kennel you require.

All our kennels are manufactured on site and therefore we offer a full bespoke service, whether you have overhanging trees or awkward corners we offer a service that can meet any requirements you may have.

We offer delivery anywhere Nationwide, no distance is too far!

We recommend a solid washable base, such as a 100mm thick concrete base with fall away from the kennel. A cheaper alternative option would be a paving slab base or rubber matting.

Mizera Dog Kennel

Whether you want a kennel for one dog or a block of 5 this is the range for you. This design combines the sleeping box and run under one roof, allowing the dog freedom of movement. Insulation is available making the kennel suitable for use all your round.

Having an overall height of around 7ft with full height doors allows ease of access especially whilst cleaning out.

The galvinsed steel bars comes as standard spaced at 50mm providing a strong a secure kennel. The wood is all pressure treated together with onduline roofing making this building built to last. Chew strips are also available for the pop hole to eliminate damage through chewing.

We make all our kennels on site allowing us to offer a bespoke service to suit your needs and requirements.

Kutya Dog Kennel

Sheltered on two sides allowing more protection from the elements in those exposed areas, and allowing the dog to move between the sleeping box and run with ease. Insulation is available in order to make this range suitable for all year round use for your dogs.

Having the option of a storage area, allows you to keep everything you need for your dog in one place.

The highest point of around 6ft with full height doors allows ease of access especially whilst cleaning out.

The galvanised steel bars come as standard spaced at 50mm providing a strong a secure kennel. The wood is all pressure treated together with onduline roofing making this building built to last. Chew strips are available for the pop hole to eliminate damage through chewing.

Koira Dog Kennel

This range of Dog Kennel is great if you require somewhere to put your dog whilst having visitors, popping to the shops, or if you have a wet dog after a walk and need somewhere for them to dry off!

It comes as standard with mesh, however galvanised steel bars are an alternative if preferred.

Chew strips are also available for the pop hole to eliminate damage through chewing.

All wood is pressure treated, with an onduline roof making this a kennel designed to last.

Madra Dog Kennel

This kennel is great for all sizes of dogs. No assembly required!

Offers protection from the elements for the garden kept dog.

A tie ring can be attached for that dog who loves to escape and give you peace of mind they will be there when you get back!

All wood is pressure treated, with an onduline roof making this a kennel make designed to last.

Timber Garages

What else could enhance your property more than an attractive Timber Garage, whether you need somewhere dry to park a cherished motor or just some extra storage space timber Garages are the perfect solution.

Generally we find our customers want quite a bespoke design after all no two properties are the same, we do however have standard sizes to give you a guide on price, please don't be scared about asking for something different, there is no charge for being bespoke.

Casement window, Frame ledge and brace doors and flooring are all available options to bear in mind.

Carports

A Broadfield Carport doesn't have to be just for cars; in fact the majority we produce are for ride on mowers, tractors and Quads. As with all our designs if you want something a little different tell our sales staff what you want and we'll price it.

Our standard Carports are supplied with a Black Onduline roof, we can also supply with cedar shingles, Felt tiles or leave it ready for your contractor to tile.
